CITY OF KINGSTON, N. Y., FRIDAY EVENING, NOVEMBER 7, 1919.

PRICE THREE CENTS.

RESERVATIONS MUST BE "ACCEPTABLE" AND PERMIT LEAGUE, SAYS WILSON

Hitchcock to Offer Resolution When Lodge's Is Defeated—If Beaten Treaty's Friends Will Attempt Compromise.

By Telegraph to The Freeman.
Washington, Nov. 7.—President Wilson will accept reservations to the treaty of Versailles which are "acceptable to the friends of the treaty and which will not nullify the league of nations."

Senator Hitchcock, administration leader, made this statement this afternoon, after he had spent half an hour with President Wilson laying before him the treaty situation in the senate.

"The president was in entire accord with the program made by the administration leaders," Senator Hitchcock declared. "We have arranged that I shall introduce a resolution of ratification in the senate which will follow the defeat of the Lodge resolution."

"I explained to the president that the Lodge resolution will pass in the committee on the whole, but when it gets into the open senate where a

two thirds vote is necessary, it will be defeated. I will then offer a resolution of ratification which will be acceptable to the friends of the treaty and if that is not adopted then they will attempt a compromise resolution of ratification."

Washington, Nov. 7.—With administration leaders threatening to invoke the closure rule to curb debate, the senate today proceeded with the consideration of the peace treaty reported out by the majority of the foreign relations committee.

The majority reservations were being taken up today with the possibility of a vote on one or more before the day closed, although considerable debate was promised.

Republican leaders, who were thrown into a flurry yesterday by the precipitate action of Senator Hitchcock in asking for an immediate vote for ratification, were still certain today that the treaty would be disposed of by the end of another week.

MRS. DAHLMAN SPEAKS TONIGHT

Lecturer-Nurse Who Served Abroad to Tell Workers Why Greater Red Cross Program Is Necessary Now Than in War Time.

The Red Cross Membership Campaign is now in its middle period with redoubled energy on the part of the workers and with an awakened sense of responsibility on the part of the people of Kingston.

One year ago we were all looking forward to the greatest of all Red Cross campaigns—a vast financial campaign to raise \$200,000,000. Ulster county's share of this would have been about \$200,000 and Kingston's share considerably more than \$100,000.

The sweeping success of our armies and those of our allies made this campaign unnecessary.

The question this week is whether there is any one who is unwilling to do the comparatively small thing that the Red Cross now asks.

A nation saved from the continuation of the blood toll of war and from the large sacrifices that would gladly have been made is responding willingly to the call of the Red Cross for the work that can not be abandoned.

Memberships dollars are needed for the boys still in the hospitals, for soldiers' families still aided by home service, for suffering in Europe which neither our honor nor our hearts will let us abandon.

And finally they are needed because we are patriotic and merciful in times of peace as well as in times of war.

All of this will be well told at the campaign workers' meeting at the Y. M. C. A. this evening at 9 o'clock by Mrs. Jane Teare Dahlman.

Mrs. Dahlman is one of the group of nurses who served on the health crusade of the American Red Cross last summer, speaking all over the United States with the Chautauqua Lyceum. These women were selected because of their unusual experiences abroad and their speaking ability.

Sent abroad to do public health work, Mrs. Dahlman served in Foggia, Italy. During the epidemic she nursed American aviators in the Aviation Instruction Centers. Then ordered to the great American Hospital in Rome, she worked day and night caring for Italian soldiers. The latter portion of her service was spent in the north of Italy among the devastated peoples of the Piave sector.

"If the people of America fully realized the great need throughout the rural communities for nurses and civic betterment, no one would hesitate in giving their enthusiastic support to the greatest organization of mercy the world has ever known. We are standing on the threshold of our next chapter of activity which will be greater than our war time program."

"Wet" leaders were hopeful that their apparent victory in Ohio would entangle the court proceedings to such a degree that a final court decision on prohibition might be drawn out for some time, with comparative immunity for the "wets" in the interim.

"Mr. Gompers is not the uncrowned king of this country," declared Clarence True Wilson, general secretary of the board of temperance of the Methodist Church, today in a statement bitterly denouncing Samuel Gompers for statements that unrest is due to prohibition.

"If it be true that foreign born laborers are rebellious against the country because of prohibition, it may be simply said that the uninformed element of foreign labor does not control this country," Wilson continued, "and the country is not being run entirely for their benefit. If they don't like the way things are being done, let them go to Europe and six weeks after they have landed on that continent, they will be begging for passage money back."

"The French Commission received at Annual Meeting of National Lutheran Commission—Dr. F. H. Knobel Speaks.

By Telegraph to The Freeman.
Chicago, Ill., Nov. 7.—The National Lutheran Commission for Soldiers' and Sailors' Welfare at its annual meeting at the Hotel La Salle, Chicago, today came out in favor of the organization of a chaplaincy corps in the army and one chaplain for every 1,200 enlisted men and an increase in rank for the chaplains.

Dr. Lauritz Larsen, in speaking for the resolution said, "Today there is about one official for every animal in the army, and only one chaplain for every 1,500 men."

The French Lutheran Church sent over a commission to the annual meeting, consisting of Henri Bach, Bishop of Paris, and Mrs. Bach, the Rev. Andrew Meyer of Montclair, the Rev. and Mrs. Nessmann of Strasburg, Alsace.

Dr. F. H. Knobel, chairman of the commission and president of the United Lutheran Church, in greeting the French Commission, called the moment prophetic of an international Lutheranism. In part, Dr. Knobel said, "This moment is important because it brings the combined greetings of the Lutheran Church of America and from the Lutheran Church of France. It is important also, because it brings together churches one in faith, but become one in heart through the struggles of the war. Out of this co-operation and out of the co-operation of Europe, there comes the possibility of an international Lutheran federation which will mean an epoch in the advance of Christ's kingdom."

Bishop Henri Bach, in speaking for the French Commission, thanked the aid rendered during the war. He asked for further aid during the period of reconstruction. Among the things asked for were the establishment of an American Lutheran Church in Paris and assistance in obtaining men for the ministry and providing for their education.

Bishop Bach said, "The future of the Lutheran Church in France is very bright, though it has passed through very dark times. Through the accession of Alsace it has become a strong factor in the church of France."

Among the men present at the annual meeting of the National Lutheran Commission were the following: Dr. F. H. Knobel, 48 Hamilton Terrace, New York City; E. E. Elliott, 127 5th Avenue, New York City; Rev. H. A. Walker, D. D., 1416 S. 10th St., Philadelphia, Pa.; Prof. E. F. Krause, D. D., Maywood, Ill.; Rev. G. H. Bechhold, 1226 Franklin Avenue, Philadelphia; Rev. the Rev. L. D. Worman, Shepherdstown, W. Va.; the Rev. F. J. Johnson, Ph.D., 430 Pacific St., Brooklyn, N. Y.

St. Peter's Glee Club.
The young men of St. Peter's church who wish to go out for business are urged to attend the Glee Club meeting in the future. It is intended to organize the team as soon as possible. A meeting will be held in the club rooms tonight after services. The first game will probably be played in the hall the latter part of the month. Rev. John F. Neumann and Rev. Joseph H. Ostermann are actively interested in the club and arrangements of the young fellows and the Glee Club is growing steadily.

Activity in Working.
A. J. Snyder of Montclair is having a heater heating and ventilating system installed. The work is being done by the Campbell Store Co.

DON'T BE TOO IMPATIENT.

The men of the American Legion who are making the Red Cross Roll Call Canvass in Kingston are not gentlemen of leisure.

They lost from one to two years of profitable employment while they were working for Uncle Sam at a dollar a day—while you were back home earning larger wages than you ever received before.

They came back home and went to work, trying to make up for the time they lost. They cannot afford to lose much time asking you to join the Red Cross.

But they are so thoroughly in earnest—they know so well what the Red Cross means—that they are working evenings and on Sunday in order to induce you to join.

They had eight days in which to make the canvass and they plan to complete it in that time—but owing to the few hours they can give it each day they will require the entire eight days.

That is why you haven't been seen yet.

Why not help them along by having your dollar ready for them when they call. Better still, hunt one of them up and give him your membership.

Don't turn down the men who fought for you.

GREGORY JOINS Y. M. C. A. STAFF

High School Graduate and Former Freeman Reporter Takes Up Position as Utility Secretary—Well Liked by All.

The staff of officials at the Y. M. C. A. has been greatly strengthened by the addition of Stanley Gregory as a utility secretary. Mr. Gregory, who is a Kingston young man, is well liked by all who have the pleasure of being acquainted with him. He is a graduate of K. H. S. and was a well known figure in athletics, having the distinction of being called one of the brainiest quarterbacks of the Hudson river valley football teams, "Shunies," as he is familiarly called by his numerous friends started on the K. H. S. team, of 1915.

After leaving school he served very efficiently on the editorial staff of The Kingston Daily Freeman. Later he served in the United States navy as a first-class yeoman and has only recently returned to this city.

His many friends are glad to welcome him back to Kingston and especially in the position which he has taken up.

S. A. Cross a Senior Auditor.
State Comptroller Travis Thursday announced the provisional appointment of nine senior auditors to be located in the various income tax bureau branches throughout the state. Sanford A. Cross of Kyserlie is among the appointees. They are each to receive a salary of \$2,880 a year. John J. Burns of Monticello is also an appointee. A special school for the senior auditors was started on Thursday at the Capitol, Albany. Instruction in the administration of the new law will be given to attaches of the bureau. Sanford A. Cross was county superintendent of highways, being appointed by the board of supervisors while Superintendent James P. Loughran was in the naval reserves as an engineer.

Higginson on Club Committee.
Rear Admiral Francis J. Higginson of this city, is one of the navy committee of the International Sporting Club, of which Major Anthony J. Drexel Biddle, U. S. M. C., is president, the vice-presidents being Hon. Franklin K. Lane, secretary of the Interior, Gen. Coleman DuPont, Admiral William S. Sims, and Justice Barlow S. Weeks. George L. (Tex) Rickard is the matchmaker. Ring side seats will be allotted to fifty members of each of the fifteen or more of the leading clubs with headquarters in New York. The International Sporting Club will be similar to the London Sporting Club.

Two N. Y. Assemblywomen.
By Telegraph to The Freeman.
Albany, N. Y., Nov. 7.—Two women will sit in the state assembly when it convenes. They are Elizabeth Gillette, Democrat, of Schenectady, and Margaret L. Smith, Republican, of New York City, both being elected in Tuesday's election. Miss Smith announced that she will come to Albany to work for compulsory physical training in the public schools and for legislation aimed at rent profiteers.

Schranz's Quik Retailing.
Next Monday will mark the passing of the retail ice cream and confectionery business of J. Schranz's on Main street. Poughkeepsie. The firm will serve all of its enterprises to the wholesale business. The retail store has been purchased by a nephew, Charles J. Schranz, Jr., who had been in a similar business in Newburgh.

Executive Message Announced.
By Telegraph to The Freeman.
Washington, Nov. 7.—President Wilson has written a message to the nation, which he will make public on the anniversary of the armistice next Tuesday. It was announced at a supper, Charles J. Schranz, Jr., who had been in a similar business in Newburgh.

Lighting Causes Explosion.
St. Louis, Mo., Nov. 7.—Lightning struck the roof of the Atlas Powder Company, causing an explosion in which two men were killed and the building blown up at Signal Hill, Ill., about five miles from Belleville. During a heavy storm Thursday, a third man was seriously injured.

RED CROSS DRIVE IS GOING OVER

A Word of Explanation To Those Who Thought War Chest Meant Red Cross—Service Men Working All Spare Time.

In some sections of our city there seems to be some worryment as to whether or no Kingston and Ulster county are really going over the top this time, as they have always done before. The reason for this anxiety is that the returns are coming in slowly, and also many people have not been solicited in the city, while in the county the workers are finding those who are dissatisfied because last year through the War Chest many organizations were given money when they thought—mistakenly but none the less seriously—their gifts would all go to the Red Cross.

To begin with this is the Red Cross drive for membership for 1919-1920 and is not a drive that was put through before the war. It is this year's drive and the conditions are those of this year, and therefore what happened last year has nothing to do with this drive. Let's get that clear in our minds.

Now as to the city. The chiefs and captains are doing their best but are working with the understanding that they were to have eight or nine days in which to complete their work. It must be remembered that the men who are doing the soliciting this year are accustomed to putting things over the top, for one thing. For another thing they are nearly all of them service men who have been back home but a few months at best, and are holding down their jobs to the very best of their ability in order to live and have their families live in even comparative comfort. They cannot leave their work to do this task much as they might like to, and so must do their soliciting evenings and Sundays. Moreover Tuesday was election day when it was difficult to find many people at home, particularly in the evening. Then on Wednesday night a great many of the service men wished, and rightly, to do honor to the six young lads who went out from Kingston high school new to return. And even if they did not attend the high school themselves, they knew that a great many of the Kingston people would be there as they were, over a thousand of them. Many more were attending the reception and banquet being given at the Central Fire Station in honor of their service men. The workers have their plans well laid and intend to cover the ground and visit every family in Kingston city, so have your hearts warm and your dollars ready. Kingston folks, for if you have not yet been called on you will be in a day or two. One thing is most encouraging, the workers find, almost without exception a ready response wherever they go.

Now as to conditions in the county. This year every cent of your dollar and all of your heart's interest will go into the American Red Cross, part of your dollar will go into the treasury of the Ulster County Chapter and part into the National Red Cross treasury to carry on the big work of bringing back to normal life the 20,000 of our men now in hospitals, wounded and sick, and of making every little hamlet and town as well as every big city a healthier, happier place to live in. If the Red Cross can be enabled to do that, it would seem almost as though the awful sacrifice of the world had been in some small measure justified.

KINGSTON HOMES CORPORATION AUTHORIZED CAPITAL \$500,000

Stock to be Issued in Small Blocks as Money is Needed, Probably \$30,000 in First Block—To Build 15 Homes in First Lot, for Rent or Sale at Cost.

Plans for organizing and financing the Kingston Homes Corporation were materially advanced at a meeting Thursday evening of the ways and means committee appointed by the Chamber of Commerce. Further investigation strengthened the view already expressed that what Kingston needs is homes, not shacks or tenements, and that many of these homes could be sold practically at cost to those who would occupy them. The fact was brought out that many are anxious to own their own homes but have not the requisite 40 per cent to pay down in order to secure a bank mortgage for the remaining 60 per cent, and that the building and loan associations and firms now engaged in selling houses on instalments are swamped with applications and have found by years of experience that persons buying homes in this manner never default in their payments. The plans of the Homes Corporation is to build single cottages and two-family houses which will be for rent or for sale. Sixty per cent of the cost will be in the form of a bank mortgage, separate on each piece of property. These houses will be rented so as to pay a fair profit and will be sold practically at cost and on easy terms, probably monthly payments, secured by second mortgage, an initial payment of 10 to 20 per cent being made at the time of sale.

While it is a general belief that quarters for at least 150 families are needed at once, it is probable that some of this housing will be taken care of by the renovating of existing houses that are now in poor condition or by the erection of new houses by individuals. In order to test the matter and make the investment absolutely safe, the capital stock of the Homes Corporation will be placed on the market in comparatively small blocks and at intervals as the money is required to erect a small number of houses at a time. No attempt will be made at any sensational and risky campaign that might result in building more houses than are needed.

Plans and figures from architects, builders and real estate owners showed that a six-room cottage, with bath, electric wiring and furnace heat could be built to sell for \$4,000 or to rent for about \$30 a month, while a two-family house could be built to sell for \$6,000 and rent for \$52. The Homes Corporation is not to be a money making affair to exploit the buyers by making a large profit from them. It will be satisfied with five or six per cent.

Definite action was taken by adopting a resolution requesting the directors of the Chamber of Commerce to organize the Kingston Homes Corporation with an authorized capital of \$500,000, and that sufficient stock be issued at once to build 10 single cottages at an approximate cost of \$4,000 each and five two-family houses at an approximate cost of \$5,500 to \$6,000 each, 60 per cent of the cost of these houses to be raised on bank mortgages.

This will necessitate the marketing of about \$30,000 of stock as soon as the corporation is formed. The stock will probably be issued in shares of the par value of \$100 each and due notice of when this stock is for sale will be given in The Freeman.

NOTES ON THE ARMISTICE BALL

The beautiful water color posters announcing the armistice ball, which may be seen in some of the shop windows, are the work of high school boys and girls. Designing and executing these artistic advertisements is a free will offering to the hospital which is much appreciated by the auxiliary.

There will be a booth for "smokers" at the armistice ball, which will be under the direction of Miss Anne Heaney and a number of competent assistants. Miss Heaney has had experience in conducting this important adjunct to a big ball; she knows what the men like to smoke and she will see that every popular brand is in stock.

Names of patrons are still coming in with gratifying frequency. The supplementary list will be published Saturday evening in The Freeman.

Refreshments at the ball will be provided by Mrs. Gertrude Hawkes, whose management of the Y. M. C. A. dining room has already won her an enviable reputation. Further announcement with delectable details later.

The ladies' cloak room will be upstairs, as usual, with maids in attendance and every convenience for the guests. No checking charge here.

Rumors have been flying about town that the armistice ball was to be so formal that gentlemen not wearing evening clothes would be refused admittance. This is ridiculous. Holders of tickets will all be admitted, and business clothes are just as acceptable as evening clothes. It is, however, requested that ladies who dance will come without hats, or remove them before going on the floor.

TO DINE BISHOP.
Bishop Birch to be Here Next Wednesday.

A big dinner will be given in honor of the newly elected bishop of the western diocese of New York, Bishop Birch, at St. John's parish house, this city, by the men of this district of the Every Name Campaign on the evening of Wednesday, November 12.

The dinner will be given at 6:30 o'clock, and all men attending any of the Episcopal Churches of the north-east conference of the Archdiocese of Orange—this district—are cordially invited to be present. Other distinguished speakers at the dinner will be the Rev. Dr. Silken, rector of St. Thomas's Church, New York City, and the Rev. E. C. Jones, rector of St. John's Church, New York City.

Tickets for the dinner will be one dollar and it is expected that there will be at least one hundred men present.

To Elect Fire Chief.
Poughkeepsie will elect a fire chief on November 25. There are two candidates in the field, William H. Frank, the present chief, and George F. Wood, a former chief. Phoenix, 2137 First at a corner, R. J. on November 1. A fast field game is said to be under way and some time before the election. Mr. Frank, while a very capable man, is a country-wide reputation as a fast business man.

A Fast Tractor.
Silken, owned and driven by Percy Birch of Stone Ridge, won the 2137 First at a corner, R. J. on November 1. A fast field game is said to be under way and some time before the election. Mr. Frank, while a very capable man, is a country-wide reputation as a fast business man.

BACK TO OPEN CIGAR FACTORY

Monday in Former Saloon Building at Forth and Hasbrouck Avenues—Old Established Brooklyn Concern to Manufacture High Grade Cigars.

J. B. Back, who has been established in the cigar manufacturing business in Brooklyn since 1888, has leased of the George Hauck & Sons Food Products Company the building at Forth and Hasbrouck avenues, formerly occupied by the late John Melville as a saloon. The building has been vacant for some time, the saloon being one of those eliminated in Kingston when the state law reduced the number here.

Mr. Back recently took possession of the building, and has had a number of necessary alterations made. He expects to engage a large number of men and women, and will begin the manufacture of a high grade of hand made cigars on Monday.

Another new cigar factory that will shortly begin operations is that of H. C. Mansky, who has leased the upper floors of the Cordts building at Strand and Hasbrouck avenues, as related in The Freeman at the time. Alterations are now underway, and a fire escape is being placed on the building.

Benefit Movie to Have Matinee.
The Parent-Teachers' Association of Kingston is to have a benefit movie performance on November 13 and November 14, to help raise the necessary fund to properly entertain the big state association when it meets here next year. On Thursday, November 13, Dickens' "Dombey and Son" will be given at the Opera House, both afternoon and evening, and on Friday the same will be given at the Auditorium

OVER-EATING

In the root of nearly all digestive evils. If your digestion is weak or out of kilter, better eat less and use

KI-MOIDS

the new aid to better digestion. Pleasant to take—effective. Let Ki-moids help straighten out your digestive troubles.

Corns Come Off Like Banana Peel

"Gels-It" Leaves Toe Smooth As Your Palm. Never Fails.
Ever peel off a banana skin? Well, that's the way "Gels-It" peels off any corn or callus. It's a skin. Nothing else in the world will do it.

"A Drop of Gels-It, Goodbye Corn!"
but "Gels-It" because of the new secret principle in the "Gels-It" formula. "Gels-It" does away forever with "contractions," "wraps," "plasters," "ointments" that rub off, blood-letting, knives, and scissors that slip into the "quick." "Gels-It" eases pain. It takes but a second or two to use "Gels-It." There's no fussing or trouble. It dries immediately. You put your stocking right back on again. Your corn will come off painlessly in one complete piece. That's common-sense. It never fails. "Gels-It," the only sure, guaranteed money-back corn-remover, costs but a trifle at any drug store. Mfgd by E. Lawrence & Co., Chicago, Ill. Sold in Kingston and recommended as the world's best corn remedy by Connelly Drug Co.

One register—
plenty of heat—
low cost

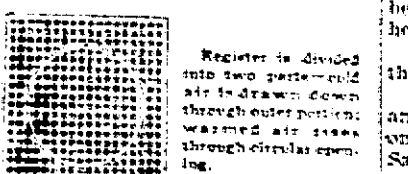

A SINGLE register over a Duplex Pipeless Furnace will effectively heat an entire building. All heat enters the rooms—there are no pipes to check the flow of warmed air.

Particularly adapted to halls, stores, dining rooms, cottages and bungalows.

Can be installed at a minimum of cost. The only cutting needed is a hole in the floor of the central room immediately over the furnace. In remarkably brief time your heating plant is ready for firing. It will give you comfortable warmth for many winters.

Ask your dealer to show you a Duplex Pipeless Furnace. Write us for a special descriptive booklet.

Metzger, Dem.	3,991
Plurality for Canfield	1,875
Alderman-at-Large.	
Dittus, Rep.	5,724
Leighton, Dem.	3,803
Plurality for Dittus	1,921

ESOPUS.

Esopus, Nov. 6.—The celebration of birthdays of a number of families took place in this village last week. The first one to occur was that of Mrs. Edward Ashton who passed her seventy-ninth birthday on Tuesday October 28th. She received a great many birthday cards, and presents from friends in Esopus and other places, also a number of friends called to congratulate her and wish her many happy returns of the day. The second in order was that of the twin daughters of Mr. and Mrs. Leslie E. Mott. They are seven years old and their anniversary was observed by a party to a number of their little friends and the mothers of the smaller guests. The children present were Catherine Hummel, Caroline Hummel, Elsie Ganoung, Helen Lund, Mildred Lund, Marie O'Reilly, Norma Mott, Eleanor Freer, Albert Givens, Jr., Aiton Lund, Leonard Mott, Hasbrouck Freer, Jr., Ernest Best and S. E. Mott, Jr. The dining room and table were prettily decorated with yellow and white chrysanthemums and pink crepe paper and there were four birthday cakes, two made by Mrs. Louis C. Goodrich, and two by Miss Bessie House, both ladies being aunts of the twins. The refreshments also included sandwiches and ice cream. The table was lighted with pink candles. The favors were pink baskets containing pop corn. The whole affair was greatly enjoyed by all present. The birthday of S. E. Mott, grandfather of the twins was celebrated the same day.

On Saturday evening a surprise birthday party was given Miss Amy Smith, daughter of Mr. and Mrs. Alexander Smith. Miss Helen Cole and brother Herbert, were the ones who planned and gave the party. Miss Smith was invited to take an auto ride to Kingston and during her absence the house was decorated with chrysanthemums and Halloween emblems and upon her return she was greeted with cries of "Surprise, Surprise!" The decorations also included a spider web formed of twine. At the end of the strands were lollipops for each guest and a number of beautiful and valuable presents for Miss Smith. After the web was unraveled supper was served. The favors were rascals and tulips. The guests were Mr. and Mrs. Calvin Cole, Miss Julia Kearney, Miss May Seaton, Miss Ruth Anderson, Miss Helen Cole, Edward Moore, Herbert Cole, and Clyde Beau. At a late hour the guests departed wishing their friend a long and happy life.

Miss Cynthia Lowe of this village and Mrs. Ella Lowe of Port Jervis are visiting relatives in Saugerties. Alfred Terpening gave his friends a pleasant surprise by coming to Esopus to be on hand to vote on Tuesday. Mr. Terpening has improved wonderfully since going to the hospital having gained seven pounds in weight. He returned to the hospital on Wednesday.

Miss Bessie House of Union Center and Miss Marie House of St. Remy attended the birthday party of their nieces, Gladys and Florence Mott on Saturday last.

HURLEY.

Hurley, Nov. 6.—Fred Lockwood went last week to the navy sanitarium at New Haven, Conn.

Mrs. Squires, Mrs. Ironmonger, Mrs. Cable and Mrs. Collier have been visitors at the Charles Dumond home.

The Stewart family are visitors in the village.

The Rev. Mr. and Mrs. Forrester and family came up from New Jersey on Friday. Mr. Forrester returned on Saturday. The rest of the family

remained here for a few days for a visit.

The corner where the main road to Kingston turns into the village street seems to be a very dangerous spot for automobiles. Perhaps they do not heed the warnings which the state has erected for this purpose. Several cars have kept on in a straight line, running into trees and monuments on the opposite side of the road, while last Saturday evening a New Jersey Buick tried the same trick, kept straight on and smashed through the Diamond fence, taking a post and some wire fence along with it and incidentally smashing a wheel and axle of its own self. An occupant of the car had the misfortune to suffer a fracture of the right wrist in consequence. It has

been very frequently the cause of astonishment as well as caustic remarks on the speed maintained by cars coming from Kingston as they make the turn and several times collisions have been just avoided as this turn is made. The wisest thing for all drivers to do is to slow up as they reach the danger sign which have been placed here.

Mr. and Mrs. Charles Chipp of Grand Gorge spent a few days at the Ten Eyck home. Mr. Chipp is quite a hunter and utilized his stay here in the woods and fields. He had some measure of success.

Mr. and Mrs. Lloyd Lockwood arrived at the Forrester home on Tuesday evening after a day or so in Boston.

Mrs. Schmidt is home after a pleas-

ant visit in Albany and Schenectady. Election day went off very quietly in this village. 195 voters appeared to exercise the right of franchise, including the women, who appeared in commendable numbers. The board of inspectors accustomed itself easily to the new ruling that only six members are allowed by law instead of the previous number of eight.

The turkey supper arranged for Tuesday night has been postponed to Wednesday night, November 12. This will accommodate the many who wish to be in Kingston on Tuesday. Just to stimulate your appetite and let you know what you may expect, here is the list of good things to be provided: Turkey in capital letters, with the proper "fixins" and interior supplies, mashed potatoes, boiled onions,

cranberry sauce, cabbage salad, celery, pickles, pie and cheese, bread and butter, coffee and tea with sugar in capital letters, especially in these almost sugarless days. All will be ready by 6 o'clock and there will be plenty for everybody.

STONE RIDGE.

Stone Ridge, Nov. 6.—There will be services in the Reformed Church Sunday morning, November 9. Rev. Frank A. Langwith of Bushkill, Pa., will occupy the pulpit as a candidate.

Mrs. J. L. Snyder is in the Kingston City Hospital recovering from an operation.

Mrs. Carrie Pratty, who has been visiting Mr. and Mrs. Milton Elmen-

dorf for some time, has returned to Kingston.

Luther Garrison expects to open his garage in the near future.

Mrs. Ella Dordley and daughter, Mabel, spent Wednesday in this village.

All those taking part in the play, The Farmerette, which was given so successfully in this and nearby places during the summer, and all those who so kindly took the troupe to the different places in their cars, gave the manager, Mrs. Milton Elmen-dorf, a surprise on Wednesday evening. About thirty were present.

DANCING SATURDAY NIGHT. PYTHIAN HALL.—Advertisement.

Camels are full-bodied, but so mellow-mild and smooth you'll call them a cigarette revelation! *They are a constant delight!*

YOU'LL prefer Camel Cigarettes expert blend of choice Turkish and choice Domestic tobaccos to either kind smoked straight. *Your taste will prove that!*

Camels are so exceptional in flavor, in fragrance and in mellowness that you quickly realize their remarkable quality.

You may gratify your keenest desires to smoke liberally—Camel Cigarettes *will not* tire your taste!

Your enjoyment increases as you get to know Camels better—they return such generous cigarette satisfaction.

Camels certainly fit your taste exactly—as if they had been made for it!

Camels are unlike any cigarette you ever smoked. For instance, they leave no unpleasant cigarettey aftertaste or cigarettey odor.

In fact Camels are in a class by themselves! That's why we ask you to compare Camels with any cigarette in the world at any price!

You will not look for or expect premiums, coupons or gifts. *You'll prefer Camel quality!*

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

KINGSTON, N. Y., NOV. 7, 1919.

DECIDEDLY FISHY.

There seems to be something decidedly fishy concerning the indisposition of the president of the United States. According to press reports, and the daily bulletins of his attending physician, Admiral Cary Grayson, a tender solicitude is displayed that he be brought into contact with business of state for fear of causing a relapse into nervous prostration and mental disorder; yet several messages are ascribed to him dealing with industrial disputes, and "one veto of a most important and consequential measure—prohibition—purports to come from him, although its language is by no means Wilsonian. On the very day this veto message was presented to the senate the president was reported unable to give even the faintest greeting to the king and queen of the Belgians, although the queen was graciously permitted to kiss the royal hand of Mrs. Wilson as she made her exit by the front door of the White House, whereupon Democracy sounded another fanfare.

When Secretary Lane read what he said was the president's message to the industrial conference, he took it from his pocket with the remark that it had been signed by the president while lying on his sickbed, and he put it back into his pocket without permitting anyone to see it. Apparently Mr. Wilson is allowed full latitude by his physician in dealing with industrial problems, but as to his attitude toward the pending reservations of the committee on foreign relations to the league of nations his most intimate lieutenants are given not the slightest inkling, yet the league has assumed a position secondary in importance to the labor disputes. He is permitted to indite a message vetoing the prohibition measure at the eleventh hour, if he did indite that message, but must not be bothered with affairs international. The situation moves one to sympathize with the bewilderment of the editor of the Fort Wayne News, who says: "Just what's the trouble with the president anyhow? Each day Doc Grayson advances some new ailment at the same time assuring us that the Most High is all right in every other respect. We'll confess that we are growing puzzled."

The constitution provides that "In case of the removal of the president from office . . . or inability to discharge the powers and duties of said office, the same shall devolve upon the vice-president." One is tempted to believe either that Mr. Wilson is wholly incapable of attending to his presidential duties, and they are being attended to for him, or that a rule is being adopted without his knowledge to show partial ability, at least, with a view to preventing the vice-president from assuming the presidential duties. But partial ability would not remove him from the provision of the constitution. The president must be wholly capable of functioning as president. Can it be that Joe Taft is really the president pro tem of the United States? And, if so, by what authority? What intimation did the saloons of the large cities have which induced them to stock up for the holidays, and why was the prohibition measure vetoed but a few hours before it would have become effective through constitutional limitation? If Mr. Wilson is as ill as the Grayson announcements would indicate, he is entitled to, and will receive, the sympathy of the people. If he is as well as the messages credited to him would indicate, there would seem to be no reason to discuss the necessity of the vice-president acting in his stead. Which is it?

Under the leadership of Senator Lodge, Chairman of the Foreign Relations Committee, the Senate has passed the bill extending for one year after peace shall have been concluded the present passport regulations governing entry of aliens into the United States. Reports from our diplomatic representatives from all over Europe indicate that herds of undesirable individuals, including many Bolsheviks, are waiting to come to our shores the moment present restrictions are lifted. By a continuation of the law now in force our consular in foreign ports will be

enabled to vise passports before their holders take ship for this country. In that way they can much more effectively keep objectionable emigrants from America than can the immigration officials at our home ports.

BOATS REST ON CREEK BOTTOM

High Wind Caused Lowest Tide in Some Time in Rondout Creek—It Was Three Feet Below Normal—Dry Dock Nearly Completed.

The heavy northwest wind that blew throughout on Thursday caused the lowest tide in some time in the Rondout creek, it being about three feet below normal. So low was the water that a number of loaded coal barges in the creek at the coal pockets rested on the muddy bottom of the creek until they were floated at high tide.

The first section of the big dry dock being constructed on the Island Dock will shortly be ready for launching. It was expected to launch the dry dock this week, but the work is being held up by the non-arrival of material needed in the construction work.

Rivermen are already speculating as to the prospects of securing an ice crop from the Hudson river this winter. Last winter not a pound of ice was harvested from the river fields, and the river was open for navigation the entire season.

Hanging in the office of the Cornell Steamboat Company is an old poster, now framed, calling attention to the fact that the steamboat Victory left for New York city two days a week from Rondout. Captain William Tremper was in charge and the fare was 50 cents. That was in 1837. Quite a difference nowadays, but then the trip can be made quicker now and in much more comfort.

LITTLE FOLKS' MINSTREL

To be Given in Spring Street Church Soon.

One of the "Little Folks' Minstrel Shows," which have afforded such pleasure in the past, will be given under the direction of Miss Sophie Schmidtkonz in the school hall of the Spring Street German Lutheran Church on November 18 and 19. Refreshments of ice cream and cake will be on sale. The curtain will rise at 7:30. The program will be as follows:

Bones, William Lieske; middleman, John Tomso; Sambo, William Menzel.
 Part I—All Sorts.
 Opening Chorus—Hail! Hail! The Coons Are All Here.
 Song—Wait Till You Get Them Up in the Air Boys—William Menzel and Jig—Rum Tum Tiddle . . . Sung by Julia Schupp; Jiggers, Agnes Vandemark, Marie Brandt, Olga Scholl, Elsie Ostrander.
 Song and Dance—The Tickle Toe . . . William Menzel and Elsie Ostrander.
 Song—K-K-K-Katy . . . Jellie Buchholz, Agnes Vandemark, William Menzel.
 Part II—A Roaring Farce.
 "At the Fruit Stand."

TWENTY AND TEN YEARS AGO.

Nov. 7, 1899.—Death of Mrs. Patrick Pillsbury.

Mrs. George Mills, died on East Union street.
 Nov. 7, 1909.—Thomas H. Merrill died at his home on Clinton avenue, aged 58 years.
 Karl Lehman delivered address on Christian Endeavor work at rally of Kingston Local Union of C. E. at First Presbyterian Church.
 Plans for new tuberculosis hospital completed.

Preachers For St. James Church.

At St. James Methodist Episcopal Church, on Sunday morning, Dr. G. W. Grifton, superintendent of the Kingston District, will be the preacher. Dr. Grifton is a very popular and instructive speaker, always bringing a spiritual message that is helpful. Without doubt there will be a large and appreciative congregation present at the morning service. In the evening, Dr. Alfred Coons, who has recently taken up his residence here, will occupy the pulpit. Dr. Coons is a man of large and varied experience, having held many of the most important pastorates in the New York conference. He was the district superintendent, or presiding elder, when St. James church was built, he having laid the cornerstone of the same. At one time he was the pastor of the Clinton Avenue Church. He is an inspiring and forceful preacher. Already Dr. Coons has made a place for himself in the church and in the community. There will be attractive music at both services.

Rare Limbs Shock Visitor.

By Telegram to The Freeman.
 Port Chester, N. Y., Nov. 7.—Rare limbs have no place in charity, according to the Rev. H. B. Head, rector of the Episcopal Church. The clergyman was so shocked by a display of bare legs and disheveled draperies of high school girls taking part in a pageant for a tuberculosis fund that he issued a statement attacking modern dress as "immoral and indecent" and then resigned as a patron of the pageant.

Mrs. Mintz Still Unconscious.

By Telegram to The Freeman.
 New York, Nov. 7.—Thirty days in a coma, today, the condition of Mrs. Bern Mintz, suffering from tubercular encephalitis, or "sleeping sickness" at the Willard Parker hospital, is unchanged, hospital authorities reported.

A SAVING THAT BELONGS TO YOU.

Copyright 1919, Hart Schaffner & Marx

SOME writer once said that it took him so long to make up his mind that he must have an awful lot of it.

It didn't take us long to make up our minds what to do when we found that prices have advanced so since we bought our fall goods that our clothing is worth much more than it was a few months ago.

We decided that the saving we made on our early buying belonged to you; and you're going to get it in the best clothes made.

Hart Schaffner & Marx clothes

They're here in all the new styles; "belters," double-breasteds, the new Varsity Suits; guaranteed to satisfy you—money back if they don't.

**HARVARD FAVORED
FOR TOMORROW**

In Big Football Game With Princeton—Yale Meets Brown and Notre Dame Comes to West Point.

By Telegraph to The Freeman.

New York, Nov. 7.—The spotlight in eastern football swings towards Princeton, where the Tigers and Harvard signalize the climax of the 1919 season by meeting in their annual blue ribbon clash. It is the opening game in the big triumvirate.

The Crimson eleven, pivoting around the inimitable Casey, will go to Princeton a big factor in the betting. The "dope" points towards a Crimson victory. Not since 1911 have the Tigers mustered an eleven capable of beating the Crimson. And Harvard has not been scored against this season, while Princeton has suffered two decisive defeats at the hands of smaller opponents—Colgate and West Virginia.

"Dope," however, seldom runs true when it involves one of the big three. It is an axiom at Princeton that the strength of a Tiger eleven can never be gauged by what it shows in a "preliminary" game, it can only be gauged by what it shows against Harvard or Yale.

Harvard has an enviable record this season, but the fact must be acknowledged that the Crimson has not met a formidable opponent. All Harvard's games have been more or less "set ups" while Princeton has taken on some wild cats—witness Colgate and West Virginia.

The Army—Notre Dame meeting at West Point gives tomorrow's program an inter-sectional flavor. There is very little dope or comparison to be given students of form a line on the probable result. The Hoosier Catholics are supposed to have their traditional strength and the same is true of the cadets.

Yale meets Brown in what should be a Blue Victory although a large score is not expected.

If past performances are any criterion tomorrow's meeting by the powerful Pitt eleven and tiny Washington and Jefferson should be a whale of a game.

Pitt's only defeat this season was at the hands of Syracuse. W. & J. Lickd Syracuse. The game at Pittsburgh should reveal whether the W. & J. victory over Syracuse was a "fake" as Syracuse supporters believe.

Pennsylvania meets Dartmouth at the Polo Grounds in what should be some ripping football. Dartmouth is generally favored. Colgate whose eleven some critics believe the best in the east this fall, has a set-up at Rochester. Syracuse meets Bucknell.

The western program calls for meetings between members of the Big Ten all over the circuit. Chicago tangles with Michigan at Chicago. Minnesota and Illinois meet at Indianapolis and Purdue hooks up at Columbus.

Its fall bill tomorrow and the results should go towards clarifying the championship agitation in all sections.

PYTHIAN CLUB DANCE

Will Take Place Saturday Evening at Pythian Hall.

The Pythian Club will hold its regular weekly dance on Saturday night at Pythian Hall corner of John and Wall streets. A dance was held in Halloween night and there was a large attendance.

A very clever "moon" has been designed and placed in the end of the hall near the ceiling. When the rest of the lights excepting the side lights and those for the orchestra are out the moon shines forth and is more real than imaginary. This novel design is to be used for "moon-light" waltzes.

Vollett's orchestra will be on hand with the music which is bound to please all. A large attendance is expected this week.

Russian Reds Warn neutrals.

By Telegraph to The Freeman.

London, Nov. 7.—The Bolshevik government of Russia has notified neutral countries that it will consider adherence to the allied blockade "an act of war," said a Central News dispatch from Stockholm today. The Bolsheviks have mobilized 80,000 soldiers, including a number of Chinese, against General Yudenitch's army on the Petrograd front, according to information from Rera.

Van Wagenen's Take Liberty Bonds at Full Value in Exchange For Merchandise

Profitable Saturday Suggestions

Oh, Man! Here's News

GOV'T IS FIRM IN STRIKE MOVES

Cabinet Decides That Injunction Proceedings Against Miners' Heads Shall be Stopped by Order Calling Off Strike.

By Telegraph to The Freeman. Washington, Nov. 7.—The government will continue its injunction proceedings against the leaders of the coal strike.

President Wilson's cabinet made this decision today after considering the protests which organized labor has made against the proceedings. Secretary of State Lansing, announcing the cabinet meeting, said that the cabinet had decided to continue its injunction proceedings. Secretary of Labor Wilson refused to state whether he had argued against the injunction proceedings, or had asked to have them vacated. He stated, however, that he had not presented a plea from Samuel Gompers to the cabinet.

The injunction proceedings will be dismissed the very minute the strike order is rescinded, the very minute," declared Attorney General Palmer on leaving the cabinet meeting.

Asked whether there were hopes of the strike order being rescinded, the attorney general replied, "Mr. Gompers is waiting for me in my office now."

Gompers held a brief conference with Frank Hughes and Paul Smith, officials of the United Mine Workers, early this afternoon and then left for the attorney general's office. The entire time of the cabinet meeting was taken in listening to Secretary Wilson, it was stated later. "It was an hour and a half wasted," said Secretary Glass as he left the meeting.

Overseas Nurses Dined

On Wednesday evening of this week the Kingston City Hospital Training Class for Nurses' Alumni gave a dinner in the private dining room of the Stuyvesant Hotel in honor of the overseas nurses who went into service from this city. A large basket of beautiful white chrysanthemums decorated the table, the place cards being American flags. A delicious and sumptuous course dinner was served. The guests of honor were Miss Somerville, Miss Deicke, Miss Farrell and Miss Edna Smith, honorary member of the alumni.

Central A. C. Dance

The dance to be held at Mechanics' Hall, Henry street, Monday evening, November 10th, by the Central Athletic Club in order to raise a fund to assist the basketball team of the club promises to be largely attended. The Central A. C. basketball team won the city championship two years in succession and the line up this year will be stronger than ever, as will be seen after the league season in this city gets started. Curt Shorter's orchestra will render the dance program at the dance Monday evening.

BUSINESS NOTICES.

KNIGHTS OF COLUMBUS, ATTENTION.

Members will meet at 8 o'clock Friday evening at the home of our late brother, James McAndrew, 39 Grove street, Ponckhockie.

CLERK OF COUNTY, N. Y.

Be Prepared For Influenza

Cut This Out

Many medical men say we will probably have another epidemic this fall. Let us all hope and pray we will not. But at the same time let us be well prepared.

The flu as it is called, usually starts with a cold and tightness in the chest. If you even suspect there is a chance that you may be getting influenza take a good dose of laxative tea, such as Dr. Carter's K & B Tea or Celery King and send for your physician. While you are waiting for the doctor rub 1/2 oz. of Mustardine on throat and chest.

Rub it on freely and never mind if it does feel good and hot, it cannot blister even the tenderest skin. But don't stop at throat and chest, get some on to rub the upper part of the arm and over your entire back and especially between the shoulder blades.

This is one of the most sensible precautions you can take against pneumonia which often quickly follows the flu and is just what the doctor tries hard to elude. You can get Baby's Mustardine for 25 and 50 cents in yellow boxes all ready for use at any drug store. Remember it is made of real yellow mustard. Use it for sore throat, coughs, chest colds, pleurisy, bronchitis, lumbago and all aches and pains.

Found at Last! Real Hair Saver And Beautifier

Quickly Makes Dull, Harsh, Unattractive Hair Doubly Beautiful, Abundant, Soft and Fluffy—No Nothing to Fear.

Beautiful Hair and Lots of It If You Use Parisian Sage

Here is good news for men and women whose hair is falling out, whose scalps are covered with dandruff and itch like mad. All good druggists can now supply you with the genuine Parisian Sage (liquid form) which is guaranteed to quickly and safely abolish every sign of dandruff, stop itching scalp and follow-up hair and promote a new growth of hair.

Thousands can testify to the excellent results from its use. Some who feared becoming bald now glory in their abundant hair, while others who suffered for years with dandruff and itching head get a clean healthy scalp after just a few days' use of this up-to-date home treatment.

No matter whether you suffered with falling hair, matted stringy hair, dandruff or itching scalp, try Parisian Sage—you will not be disappointed. It is a scientific preparation that supplies hair needs. The first application will make your hair and scalp look and feel 100 per cent better. It will stop the itching, destroy lice and lots of it by all means use Parisian Sage. Write S. Eltinge will supply you. Don't delay—begin tonight! A little attention now helps insure abundant hair for years to come.

DOESN'T THAT FEEL GOOD ON YOUR HEAD?

Children fairly delight when mother pours KIL-VE on their heads. It makes them safe and secure against vermin.

They can play safely anywhere if you use KIL-VE on their heads. It destroys the eggs or the tiny chrysalis to the hair. It is not oily or sticky and does not interfere with color or growth of hair. Sold at all drug stores—25c, 50c and \$1.00.

KIL-VE

The House of Kuppenheimer Clothes

Double-Breasted

With All-Round Belt

That's the thing for stylish young men this season.

The House of Kuppenheimer

developed some very new and distinctive double and single-breasted belted ideas for us—without a doubt some of the finest looking suits we've ever seen.

You'll like the double-breasted, especially. They're a great deal different than the double-breasted suits of past seasons—the coats have a higher waist effect, more flare to the skirt, new ideas in cuffs, lapels, plaits and pockets; buttons are set differently, too.

We haven't forgotten the man who prefers a single-breasted suit, either. Many smart ones here—all-around belt, half belt, or no belt; one, two or three buttons; ultra stylish, in-between or conservative.

The same old Kuppenheimer quality—dependable all-wool fabrics, and tailoring that expresses refinement in every detail.

19-19

MATTERS BEFORE SURROGATE GILL

In surrogate's court the last will and testament of George T. Mickens, deceased, late of the city of Kingston, has been filed for probate and citations issued returnable November 18. By the terms of the will the property at 192 Pine street is bequeathed to Henry Theodore Terpening, Jr., of Kingston; to Lillian and Anna Bonesteel, the property 13 Foxhall avenue; to William F. Abernethy, the property located at 87 Stepan street, to Hattie E. Welton of Poughkeepsie the sum of \$100; to Franklin Halsey Dumont of Brooklyn all the rest and residue of the property, real, personal and mixed. William F. Abernethy is named as the executor. Value of estate, \$4,500 real, \$3,000 personal. Fowler & Loughran are attorneys for the petitioner.

Letters of administration have been issued to Luther Osterhout in the estate of Katie Osterhout, deceased, late of the town of Marlborough. Bond filed. Value of estate, \$600 real; \$100 personal. Virgil B. Van Wageningen, attorney for petitioner.

Letters of administration have been issued to Hattie Cook in the estate of Benjamin Grote, deceased, late of Ellenville. Bond filed. Value of estate, \$2,800 personal. H. Westlake Coons, attorney for petitioner.

OUR DAILY PATTERNS.

2994—A Practical, Pleasant Combination Garment.

This comprises a comfortable corset cover and a dart fitted one-piece undershirt or petticoat. One could use flouncing for both the models, or batiste, muslin, lawn, dimity, crepe, washable satin, silk and crepe de chine. The ruffle may be omitted. The pattern is cut in 4 sizes: small, 32-34; medium, 36-38; large 40-42; extra large, 44-46 inches bust measure. Size medium requires 3 3/4 yards of 36 inch material; with 5/8 yard for the ruffle.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or one cent of two cent stamps by The Pattern Department, The Freeman, Rondout, N. Y. Be sure to state size wanted.

Catalogue Notice.

Send 10c in silver or stamps for our up-to-date fall and winter 1919-1920 Catalogue, containing 550 designs of Ladies', Misses' and Children's Patterns, a concise and comprehensive article on dressmaking also some points for the needle (illustrating 30 of the various, simple stitches), all valuable hints to the home dressmaker.

FIFTH BIRNEWATER.

Fifth Birnewater, Nov. 6.—Mr. and Mrs. Herman Terwilliger and family motored to West Park recently.

Several from here attended the masquerade at Rosendale Hall, and enjoyed a very fine evening.

Mrs. Ernest Hinkley and daughter, Pearl, of Kingston, spent a few days with friends and relatives here recently.

Mrs. F. Dowler of Brooklyn visited relatives here over Sunday.

Mrs. Theodore Pine and Mrs. Bert Pine of Kingston called on Mrs. William Eschby Monday afternoon.

Mrs. Eric Hinkley of Kingston spent Monday afternoon with Mrs. Herman Terwilliger.

Mrs. Oliver Dietz and brother, James Smith, of Schenectady, spent a few days with Mr. and Mrs. Montcomery Dietz of Fourth Birnewater.

Fred Best and Claud Pine of Kingston were week end guests of William Eschby.

Mrs. Emma Brewer is home for a few days.

Mrs. Sarah Dietz of Fourth Birnewater is greatly improved at this writing.

Edward Bradley of Maple Hill was in town Sunday.

Several ladies from here voted at Bloomington, while several from Fourth Birnewater passed through here en route for the polls at Rosendale. We are glad to see that they appreciate the equal rights they have gained.

Walter Fayer, who works at St. Martin, spent Tuesday night.

Which has been entered into model and taken over all business, William Hinkley, who has been a life long resident of this place and by the way, always a fine and good citizen, has been in town several days, and on Monday afternoon was well attended and there were several beautiful tributes. Mrs. F. F. Smith of Kingston delivered a beautiful sermon. The community feels

MILLARD GOING TO "Y" CONVENTION

John H. Millard is to be a delegate from this city to the 40th international convention of the Young Men's Christian Association to be held in Detroit, Mich., November 19 to 23.

The convention is, according to Dr. John H. Mott, general secretary of the international committee of the Y M C A., the most important in its history as regards the vital matters which it must act on. Development of greater activities in city associations, in smaller communities, in industrial work, the educational field, railroad work, and among the colleges are among the topics of discussion, while the possibility of extending work in agricultural sections will also be a feature of the meetings. Then, too, the needs of the association in countries heretofore unaware of the association's value, will be considered.

As Dr. Mott says, "With the ending of the war, with the disclosing of the stupendous changes wrought by the unparalleled struggle and with the reopening of the entire world for the resumption of peaceful, constructive work, we find doors standing ajar on every hand and in virtually every land. How to respond to these world-wide demands, while discharging the great home field trust, which unmistakably has prior claim upon us, is a matter calling for prompt and earnest concert of thought and action."

Such men as George W. Perkins, Cyrus H. McCormick, Governor Carl Milliken of Maine, Lewis A. Crosscut of Boston, John W. Bailey, moderator of the general assembly of the Presbyterian Church, and other leading educators, business and professional men and pastors from all parts of the United States and Canada are serving on commissions which will be heard in this convention.

Exhibits of Y M C A work in canteens, industrial centers and in almost every phase of activity will help to stimulate interest in some of the newer branches of the work.

WHO STOLE CHOWDER?

Some One Quickly Got Away With About Thirty Quarts.

The police have a clam chowder mystery which they are endeavoring to solve. Wednesday evening 75 quarts of extra choice clam chowder made to order for Mr. Horeb Chapter, Royal Arcan Masons, by a man named Weber, a Crown Street, near North Front street, was left by mistake upstairs in the Crosby building, Wall and John streets. Mr. Weber, thinking the chowder was for one of the lodges that meet there, inquired when made who the clam chowder had not been delivered to. Masonic Hall, Wall street, disclosed the mistake and a visit was made to the Crosby building, where the hot clam chowder had been left. The big milk can in which the chowder had been placed was not to be found. Officer Simpson, who was doing duty in the neighborhood, was informed and efforts to learn who stole the can of chowder were unsuccessful. However, about an hour later the milk can containing about four or five quarts of the chowder was found near the Kimball blacksmith shop adjoining the lunch room where the chowder had been made. Suspicion rests on a man who it was learned had been eating some hot chowder last evening. The man who left the can of clam chowder at the wrong place got a man to help carry it up the long flight of stairs to the top floor of the Crosby building, but he unfortunately does not know what the fellow's name is.

AT THE THEATERS.

The Flaming Princess. Said to be a Success.

Marguerite Clark, known as "the sweetest girl in motion pictures," has scored another decisive hit in her new Paramount photoplay, "Come Out of the Kitchen," at the Keeney Theater. Also Prima in Natural Colors. Tomorrow, Evelyn Nesbit in "My Little Sister." Also Keystone Comedy and Pathe News.

"Checkers," the big Fox special production, is the Opera House bill today and Saturday.

Providing Taylor Holmes with one of the best vehicles of his screen career, "Three Black Eyes," the attraction at the Auditorium Theater today is the type of comedy which the screen most needs. Tomorrow Oliver Tell in "The Trap," and "Smashing Barriers," Episode No. 2 with William Duncan.

Harry Judger in Mort Slocer's screamingly funny musical comedy, "The Flaming Princess," that show that kept all Chicago convulsed with laughter for one solid year, will be seen at the Kingston Opera House next Tuesday matinee and evening.

Evolution Officers' Conference.

Evolution officers, judges and others interested in the social problems of the country will gather for a two day conference at the Grand Hotel, Syracuse, on November 11 and 12 under the auspices of the State Evolution Commission. Over 1000 evolution officers and others representing most of the cities and counties of the state are planning to attend. Many speakers well known in this work will be heard at the various sessions. A feature of the meetings will be round table discussions on important problems connected with the work of the courts.

Student A Team Made Up.

The Student A Basketball team of the Y M C A. has been organized with Fred Hart at the helm as captain. Tom Rowland has been chosen as manager for the A team and led to the central management and kept the team. The team will probably start the season the latter part of November by playing the Triangle team of Poughkeepsie. The team is composed of Rowland, forward, Schreyer, center, Post and Smith, guards.

DREAM OF WATER
POWER COME TRUE

Falling Water Supplies Only Perpetual Power. Said Westinghouse, and it must be Utilized as Coal Becomes Scarce.

(Contributed.)

A banker long associated with the late George Westinghouse in his various enterprises says: "The great inventor was one of the most far-sighted men I ever met." Telling of the inventor's grasp of future events, he told that in one of the Westinghouse's first great hydro electric plants he invited the banker to participate in financing the enterprise. To explain my reply, I will say, all I knew about a water power was seeing an old uncle out the backwoods of Pennsylvania saw out at a little old saw mill run by a mountain stream a lot of lumber for building oil derricks. So when in reply to my friend's invitation I asked, "What you going to build, George, a saw mill?"

The inventor gave me a pitying look as he asked: "Are you still in the saw mill age? Is that all you know about water power?" Then the inventor gave me a half hour's talk that contained more of the needs of the future in it than all I had learned during the rest of my life. "The saw mill," he continued, "was run by water power because of its cheapness and because the little dam and crude building could be abandoned as soon as the lumber in the immediate vicinity was sawed up. Today we are dependent for our power on coal, a most wasteful and expensive material. You have vast interest and investments in coal. What do you intend to do with your coal mines when they are worked out? What will that empty hole in the ground be worth then? How long will the supply of coal that is now blocking the traffic on the railroads keep ahead of the demand of industries? In the near future an unusually severe winter or a great war may so far deplete our supply that we will be tipped over the hill, and when we once get our demand greater than we can supply, what's to be done? This will surely happen, and no one can predict when."

As I could not answer his question I asked, "Have you a solution for the problem?" "Yes," and it's a very simple one," he replied. "We must turn to perpetual motion." My desirous laugh seemed to hurt Westinghouse as much as my remark of "The fool's dream of the ages," that accompanied it.

The inventor smiled as he replied: "Inventors of perpetual motion machines had the only solution of the problem before their eyes all the time and could not see it. The energy in falling water is the only solution of perpetual motion. A cubic foot of water weighs 62½ pounds. If it falls 9 feet in a second it produces one horse power of energy. Now, we have the law: The more cubic feet you have the greater power and the higher the fall is there will be just so many added foot pounds of energy. Its cost? The dam to store the water and the turbines to turn the force of the water into useful power."

"How does it compare with the cost of coal and steam power?" I asked. He quickly replied: "Let me show by the facts."

"Just think of one hundred thousand tons of coal. That represents ten thousand horse power of energy if turned into steam continuously for one year and would cost to the customer about five hundred thousand dollars and at the end of a year, all that would remain would be a lot of worthless ashes and a hole in the ground where the coal came from, that would never contain coal again."

"Had this ten thousand horse power of continuous energy been produced by a water power, at the end of the year there would remain the same energy to be used any day, and the water in the hills coming down every day to produce that power daily, forever. That's perpetual motion, and its cost to the owner would be yearly about the price of the oil to lubricate his machinery. How would that compare with the coal pile?"

"The time is coming, and though I will never see it, still, I view it with fear from this calm day: when our great land will be shivering on the brink of a bitter winter with a coal strike on our hands that will paralyze every industry."

"We are now dependent on energy in some form all the time and becoming more so. It's either horse power, man power, the latent power in coal, or oil or water power. What we need for the future is a power in perpetuity. Of these mentioned which is dependable? If you will note carefully you will see that man's energy and that from animals is self-destructive and is the way. Think of doing the work of this country in one of our big cities, by horses and man power, in the good old ways of the past. One fourth of the present city of New York would have to be used for a horse stable. Now, we are looking for energy in perpetuity and we find it in nature alone in water power. Inventors have studied this subject for ages and failed. When all they needed to do was to construct a turbine to collect all the energy in a stream of falling water."

As we were talking the train we

were on was passing then through Rochester, N. Y. Westinghouse suddenly exclaimed: "Here you can see what the energy of falling water has done. What built the city of Rochester and what is the foundation of all her industries? A ledge of rock crosses a stream here and forms a natural water power. But for that there would be no great industrial city of Rochester. The same can be said of Cohoes, and but for the government dam across the Hudson river at Troy there would be no city there today. We are looking for self-perpetuating energy, an ever-living power, that lives forever. The old saw mill will never grind with the water that have passed, is not founded on a fact but fancy, for the water that turned the mill wheels today may be evaporated and falling in rain on the top of the mountains in a short time ready to fill the dam and turn the mill wheels again, and if not the same water, there will be some other every day forever."

"Men with more hair than brains will say, only an old saw mill and an old water power. The brains of the future will say, a water power, a self-perpetuating coal pile of perpetual energy, that can never be affected by strikes or tie-ups on railroads and the only future I can see for our railroads is to see them bury up water powers and use that energy to run their trains. If they do not they will soon be what any big city would be, if it depended on horse and man power to do its daily power work."

It is needless to say, I followed the inventor's suggestions as to investing in water power and hold it today as one of my best paying bonds. Also, I never saw at "a little old saw mill." Today it seems that talk was prophetic. If they do not they will soon be what any big city would be, if it depended on horse and man power to do its daily power work."

FIGHTING HARD FOR PARLIAMENT

American Born Viscountess Astor
Handles Hecklers and Other Elements Like Experienced Stump Speaker.

By Telegram to The Freeman.
Plymouth, Eng., Nov. 7.—"If I don't win in this election, I will fight until I am six feet high," declared Viscountess Astor, conservative candidate for parliament in a political address here today.

The viscountess, who is noted for her beauty as well as her political sagacity and keen humor, is finding it difficult to speak at all the meetings arranged for her.

One meeting today, overflowed by such huge numbers that it was eventually split up into three separate gatherings.

While waiting for a political meeting, Viscountess Astor took time to deliver a mime address to a group of children, advocating the vote for all children over three years. Just how the youngsters received this startling proposal, is not recorded.

Viscountess Astor never bats an eye no matter how much work they pile upon her," exclaimed one of her enthusiastic supporters.

At one of her meetings today, after a number of witty sallies, the candidate turned serious and said:

"If I go to parliament, I promise to behave with dignity."
A heckler interrupted the candidate a number of times, saying: "Isn't there an English lady in America capable of standing for parliament?"

The interrupter may have been referring to Mrs. Emmeline Pankhurst, former leader of the militant suffragettes, who is now in the United States on a lecture tour. Viscountess Astor was not put out by the interruption.

"Undoubtedly there are plenty more able than I but none understand you better than I do," she replied.

Laborites have been the worst offenders in the way of heckling. After several of them had interrupted a meeting, Viscountess Astor exclaimed:

"My loving friends, at the back either get out or shut up."

The candidate has a way of inserting inopportune planks in her platform, but she is careful not to make any rash pledges.

"I promise not to pull the leg of the House of Commons any oftener than I have to if I am elected," she said today.

SCHOOL ATHLETIC MEET NEW YEAR'S

The annual grammar school boys' indoor athletic meet will be held at the Y. M. C. A. on New Year's Day. The school boys are already in training for the different events.

Last year, the cup was won by School No. 4, which is ably guided by Principal R. H. Van Valkenburgh.

Events which will be run off are: Standing broad and running high jumps, chinling, potato race, relay race and tug of war. The committee in charge is: Principals Garrison, Mosher, Van Valkenburgh, Prof. A. W. Bailey and Physical Director N. A. Dillinger.

TO BE 12 TEAMS

In City Basketball League—Meeting Wednesday.

The City Basketball League of the Y. M. C. A. is being organized for the season and will play its games on Saturday nights, as in previous years. Several new teams have been added to the league and it is expected that the season will open with at least ten or twelve teams on schedule.

A number of Sunday school teams have signed up. Special awards will be given to the winning teams.

The meeting for organization will be held at the Y. M. C. A. on Wednesday evening, November 12, at 8 o'clock. The meeting has been called for by Physical Director Norman A. Dillinger.

LYONSVILLE

Lyonsville, Nov. 7.—Warner O. O. Jones, who has been some time in the city, is here.

Frederick O. Jones and family spent the weekend at the home of his brother, Floyd, at Newburgh. Fred, Christina and family of Cayuga spent a few days recently at the home of the parents, Mr. and Mrs. L. D. Christina.

Arch Threlkeld has purchased a new team from the city dealers. Frank Haas was returned to The Bronx. His wife and daughter returned with him.

Mr. J. A. Groce is spending some time with her son, George H. Groce.

Every Kingston Druggist Is Grossly Underpaid

How Much He Gives in Service Compared to What He Receives in Return.

No professional man in Kingston serves the community better or more conscientiously than the druggist.

He accommodates you with postage stamps at cost, maintains a general information bureau and free waiting room, his store is a first aid hospital conducted without reward, he gets up in the middle of the night to answer your emergency calls.

Night and day he is consulted oftener than any other, and he gives his professional services without fee. His only reward, and it is a small one at that, comes when you make a purchase from his stock of merchandise.

You accept his recommendation just as you accept that of your lawyer, your doctor or your banker, because you know that his word is good and that he knows best. He can't afford to make mistakes—and he doesn't. He knows that his whole success in his chosen profession depends on accuracy on skill—on keeping faith with his customers.

He stakes his reputation as a trusted man on a day with a hundred different customers—but his judgment is founded on knowledge and experience. The man of his profession handed down through the ages through schools, colleges and text books—and the knowledge and experience which come in the day's work and in association and conference with others in his profession.

The druggist of today doesn't guess—he knows. And one of the reasons he knows is because he in-

sists that the preparations he sells shall measure up to the highest standards.

To recommend an article, the druggist must of course, know what it contains and how it is made, and this was one reason for the formation of a co-operative national association of druggists and physicians who prepare a complete line of household remedies and toilet goods. This association is the American Druggists' Syndicate.

This is the largest enterprise of its kind in the world. More than 28,000 druggists and physicians own and operate it and guarantee its products. They know that A. D. S. Milk of Magnesia is the best in the world, they guarantee that A. D. S. Aspirin meets the highest standards of quality, they stand back of A. D. S. Peridol, Toota Paste—the tooth Paste which whitens like Peroxide—because it is incomparably the best. And the same druggists in the same way are square behind the entire family of A. D. S. products.

It means everything to you to have such a guarantee behind the remedies you buy—a guarantee based on the scientific knowledge and experience of thousands of experts. When you buy an A. D. S. product from an A. D. S. druggist, you may be so in the confident belief that you have secured the finest possible product at the lowest possible price.

Ask any A. D. S. Druggist for A. D. S. product the next time you need any household remedy or toilet article sold in a drug store.

PLANS TO BENEFIT RESORT REGION

At a meeting of directors of the Catskill-Shawangunk Mountain Association, held Thursday afternoon, those present signed the incorporation papers, which will be filed in Albany as soon as the other directors have signed them. Reports showed very satisfactory increases in membership without any special effort in that direction having been made as R. S. Coe, manager of the association, assumed his duties only a few days ago. Circulars setting forth the objects of the association will be sent out in a few days and a series of neighborhood meetings will be held in various localities to discuss the purposes of the association and receive suggestions. Various plans for gaining greater publicity for the Catskill-Shawangunk region were discussed and a policy tentatively formulated for a spring campaign.

PORT EWEN

Port Ewen, Nov. 7.—By Tuesday's election the following officers were elected: John H. Beaver, supervisor, 7 majority; C. W. Card, town clerk, 769 majority; Elmer Post, collector, 226 majority; J. R. Rodman, superintendent of highways, 214 majority; Harry Elsworth, assessor, 456 majority; Jerry Avery, assessor, 420 majority; Charles C. Beaver, justice of the peace, 7 majority; Henry E. McKenzie, justice of the peace, 146 majority; C. K. Thompson, overseer of the poor, 456 majority; Lyman W. Smith, William Dibble, S. W. Perrine, Chester Thorpe and W. W. Castle were elected constables. All the above are Republicans except Henry E. McKenzie, justice of the peace, and S. W. Perrine, C. B. Thorpe, constables. The many friends of Henry McKenzie are very much pleased to think he is re-elected to the office he fills so well.

Rev. J. M. Versteeg, Associate Secretary of the Centenary Conservation Committee of New York City in charge of the Department of Spiritual Resources gave a wonderful description of the Centenary Movement and its meaning to the individual in an address long to be remembered as it was filled to the brim with spiritual truths based entirely on the Gospel and it was the most stirring, heart felt, penetrating, religious evangelistic talk ever given in the Methodist Church. At the close of the address Rev. G. M. Grinnell, the district superintendent of the Kingston district gave a few very helpful remarks and closed the service with a conservation meeting thus closing the day's service in a manner that made a wonderful impression on all those who were fortunate to be present.

Hope Lodge, No. 65, Knights of Pythias will meet this evening in their Castle Hall on Broadway.

WHAT COLORED RACE WANTS

Rev. Hughes Says Character and Ability Should Determine Their Place in Society—Claims Discrimination in Schools, Courts and Other Public Institutions.

The Rev. A. L. Hughes, pastor of St. Mark's A. M. E. Church, Foxhall avenue, contributes the following relative to the negro's status as a result of the war:

I do not want this subject or the discussion of it merely to be theoretical. I want to show the negro's place in the past, of what his place is today, and what his place ought to be, and must be in the future. I want to consider not merely his place in society, but his place in art, in literature, in politics and in reconstruction. I want to show his place in religion, and in the great onward march of civilization. It might be well to glance hurriedly over the conditions in general as they exist today in America, the conditions that apply to both the white and the colored. We are already in the midst of reconstruction. The bloodiest war of human history has just closed, the soldiers of the various armies have not yet been completely mustered out, and yet we are fighting the battles of reconstruction. It is quite ominous that despite the fact that the soldiers of all the countries engaged in the war were upon the battlefields, that they did not vanquish the enemy until the American negro was found in the thickest of the fray, and what is the omen? I answer the omen is that the battles of reconstruction will not be fought out until the American negro is given his day in court throughout the south as well as in the north and the divine proclamation or declaration is, that "of one blood God made all nations," and that he "is no respecter of persons," so, in reconstruction as in war, England, France, America and Italy may plan their league of nations, and may draw up their terms of peace, but there will be no real, abiding reconstruction or peace until the negro is given his rightful place in it, and we can see day by day the huge transports stealing into the harbor to the docks with the thousands of Yankee troops, black and white, who helped to smash the power of autocracy in Europe. Day by day these thousands of men go to swell the ranks of labor in every city, and will soon be bidding against each other for jobs. The great munition plants have shut down, hundreds of plants closed by the restrictions of war have not yet reopened; the building of homes has almost ceased, and no definite plans have yet been made by congress to handle the matters that are becoming more urgent day by day. Today, as never before, with the shadow of the Red peril sweeping over Europe, is the time for wise constructive statesmanship, and a spirit of conciliation that will recognize the worth and dignity and intelligence of twelve millions of the most faithful citizens that America has within its borders. Yes, regardless of these things, regardless of the fact that our boys, our negro boys, have been among the bravest of the brave, regardless of the fact that in a half century we have made greater progress than any other race in the history of the world, regardless of the fact that we are property owners, professional men, taxpayers and part of the very fibre of this American republic, and are refused the right to sit on trial jury. We hear from many quarters the cry, "Keep the negro in his place." In Georgia and Tennessee organizations have been formed, reviving the Ku-Klux-Klan, for the purpose, they tell us, of keeping the negro in his place. When the bloody Hun had his clutches at the throat of the civilized world, these same voices declared that the place of the negro was in the army to help the battles that would make the world safe for democracy; and now, as soon as victory has been achieved, the negro must drop to the place of a menial; a fresh onslaught of burning and lynching breaks out, while the nation that could spend its billions of money and millions of human lives, to which the negro contributed his all, stands idly by and suffers the holocaust to go on. "The negro in his place," this is the cry that is responsible for the unjust discrimination in our common carriers, that is the cry that deadens the sense of justice and that blinds the law, and that permits the perpetration of unspeakable outrages without inquiry or trial. This is the cry of intolerance and bigotry; the same brand of intolerance and bigotry that has time and again drawn a crimson stain across the pages of history. The cry of yesterday was "Make the world safe for democracy." The cry of today is, "Make America safe for democracy." Democracy means the right of people to govern themselves. Democracy means the carrying into effect of the doctrine of the declaration of independence, that all men are created equal, and endowed by their creator with certain inalienable rights. This is the democracy for which we stand, for which we have sacrificed our blood and treasure; for which we ask that it be applied to ourselves, the place of the negro.

I must speak plainly; there should be nothing to fear. No, this is not to stir up strife. God forbid! But rather to show how strife can be avoided. No, I do not want to perpetuate class distinction, but to destroy the pernicious influence that it now has on human life. I am not ashamed of my race, but I am proud of it. Let others be ashamed of it, I am not. We have no apologies to offer for our progressive work, but we honor and esteem them. Therefore let our youths and young misses of this our city of Kingston, and in this country, let their aspirations be the highest, let them be determined by anything but character and ability may have. I said that this nation, which led the way in free institu-

tions, has so far departed from its ideals as to again discriminate against an individual on account of the color of his skin. Yes, the negro has a place in the world. No longer it is a mere matter of theory or of words. Active agencies are springing up to make it a practical fact. The dullest mind can no longer fail to understand with the lesson of torn and shattered Europe before our eyes, that twelve million American citizens can no longer be denied their rights with impunity. And what we ask is so right and so just. We might summarize them in these few words. We want a vote for every colored man; yes, and colored woman, too, on the same terms as for every white man or woman. We want an equal chance for that kind of education that will enable every colored voter to act intelligently. We want a fair trial in the courts, and a right to sit on the jury that tries the case of a colored man or woman. We want a complete and proper defense against the disgusting wave of lynching that is disgracing the name of America. We want equal service on all common carriers at the same cost as anyone else. We want an equal chance to use the parks and libraries and other public institutions that our taxes go to sustain. We want an equal chance for a livelihood in public and private employment, and last of all, we want the abolition of the colored hyphenation: we are not colored Afro-Americans or colored Americans. We are straight from the shoulder undiluted Americans, and we want to be known by no other name. (Give us these things, and they are all fair, and the negro race will soon find its place). When I consider how my light is spent are half my days in this dark world and wide. And that one talent which is death to hide, lodge with me useless, though my soul more bent to serve there with my maker, and present my time account, lest He returning chide? Doth God exact day labor, light denied? I fondly ask. But patience, to prevent that mumur, soon replies, God doth not need either man's work or his own gifts, who best bears his mild yoke, they serve Him best. His state is king; thousands at his bidding speed, and post o'er land and ocean without rest; they also serve who only stand and wait.

HIGH WOODS.

High Woods, Nov. 6.—Dr. L. Russell is at her home here for a few weeks. She has been working in France during the past year.

Thomas Moran had the misfortune to lose his fine colt last week.

Mr. and Mrs. William Osborne went to Albany on Saturday to stay with their son for some time. They stored their household goods in rooms of Mrs. Lestina Conner.

Harold Brady of Albany spent election day with his parents here.

William Van Brazer is moving in the house he recently purchased of William Osborne.

Mr. and Mrs. William Carle entertained relatives from Troy for the week end.

Your choice of any suit in our house

The New Fall Coats

If you are desirous of wearing excellent models, made by the best tailors in America of the choicest materials, either fur trimmed or plain.

Come In Saturday

\$29, \$39, \$49, \$59, \$69, \$79 and up to \$150

The daintiest little dancing frocks in the city—from \$29.00 up.

Some specially good values in dresses, Silks, Satins, Georgettes, Crepe de Chines, Velvets, Tricotines, Serges and Jerseys.

18 BROADWAY **JOHN J. LARKIN** Down Town

Here's a Shoe Sale That Means Something to Shoe Buyers, These Days, When Shoe Prices Everywhere are Soaring Way "Up"!

Sale Begins Wednesday, November 5th, and Continues For the Balance of the Week

Some have full Louis heels with steel plates while others have the new and popular English walking heels. They come with hand turned soles and medium extension soles.

200 Pairs. Have been marked \$7.00 and \$9.00 in our stock. But—if we had to buy these shoes today they would cost us at least \$1.00 a pair more than you may buy them for here during this sale.

These shoes consist of the best makes to be had, such as "Sorosis" and "Utz & Dunn." Of course there are not all sizes in every kind, but all sizes in the lot. And THE PRICE

\$4.98 and \$5.98

150 Pairs. Every pair taken from our regular stock. Every pair perfect. Marked down from higher prices because some of the size ranges are depleted in some of the styles that we will not reorder.

Good, serviceable shoes in button models, in gun metal, patent leather and tan leathers; regular height. Some with cloth tops, and have medium low heels. And THE PRICE

\$2.98 and \$3.98

THIS IS A GREAT SAVING OF SHOE MONEY

Buy shoes when you can get them at these cut prices, for good shoes at cut prices are very scarce these days! Of course, you can stay away from this sale but you'll be losing money if you do. There will be no deliveries or charges during this sale.

and Mr. and Mrs. Charles Brady moved to the Jackson cemetery on Sunday. Mrs. Ray Longendyke took them in her car.

W. R. Snyder was employed in Kingston last week at the Stryker & Tompkins carcase on Broadway.

The "Willie Workers" will meet at the church hall next Wednesday at ten o'clock.

Miss Nard Kennedy, of Saugerties, is spending her vacation with her mother, Mrs. Ellen Kennedy.

Graville Snyder of Pine Grove sawed wood for Fred Snyder and Lewis E. Snyder on Tuesday.

Our pastor announced last Sunday that the hour of afternoon service hereafter would be 2 o'clock.

Charles Tompkins intends to go to Jersey City soon to stay with relatives there during the coming winter.

16 MEN ON A DEAD MAN'S CHEST
YOU! YOU! AND A BOTTLE OF RUM

Get Rid of Your Gas Grouch for Good

Don't have a grudge against the Gas man. It's not his fault that you persist in squandering precious fuel. He can't help it. But you can, however. Here's how—simply equip that car of yours with a New Stromberg Carburetor.

That's all. Right away mileage begins to multiply. Costs fall off. You go further on fewer gallons of fuel. Your engine loses its gas grouch. Then when you do wheel up to a gas station it's with a feeling of satisfaction that you have had the longest possible run for your money. There is no ground for grievance.

Now listen brother—don't say "that might work on some cars—but mine, well I don't know."

Your car is no exception. Its exact duplicate, by the scores are Stromberg equipped—and are giving more

mileage by many miles, than you are getting.

The New Stromberg holds official economy records on virtually every make of machine.

On any car, of any year, of any size it invariably effects greater gas economy. Not only that—it actually gives better acceleration—more power and more speed. Makes a better car of the best of them.

Come in and let us show you just why and just how the New Stromberg puts a crimp in fuel consumption. Put a New Stromberg on your car. Put it to a ten day test. See the savings. Figure the economy. Get the facts. Then if you are not satisfied—we will take it back and hand back purchase price without a question.

BROWN AUTO SUPPLY CO.
Service Station
242-246 Clinton Ave.

PEANUT BRITTLE

Do you like the old-fashioned home made kind, brown and white and check full of big peanuts? We have it, made in our own kitchen. There is none better.

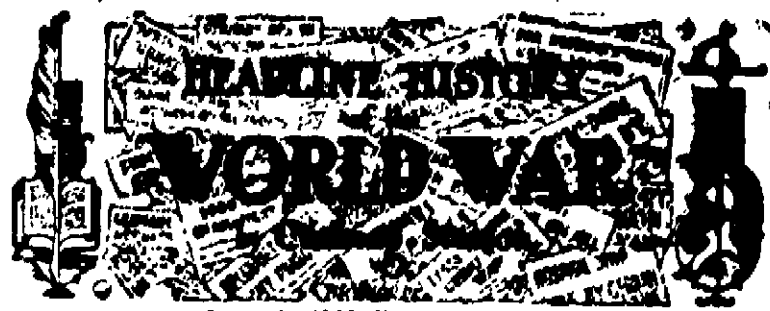

Special— **34c lb.**

This is an unusually low price considering the high price of peanuts and the scarcity of sugar. Others are asking 40c and 50c a pound for it.

WHAT HAPPENED NOVEMBER 7.

1914
British seize Fao, Turkish seaport.
Germans blow up Teling-Tau fort and surrender to Japanese and British forces.
Japanese fleet in pursuit of German fleet in Pacific.
British squadron joins search to advance sinking of Good Hope and Monmouth.
Germans capture 1,000 French and 3 machine guns near Ypres.
Germans evacuate Soupir and Sapigneul.
Russians attack German position at Sieradz on the Warthe river; last stronghold of Germans in East Prussia; capture 274 officers and 18,500 men near Cracow.

1915
America champions neutral rights in notice to Britain that blockade is "ineffective, illegal, indefensible."
Germans penetrate German lines in Lake Steben region; capture 2,000 prisoners in Kovle region.
Austro-Germans capture 3,481 Serbs and 120 guns in Morava valley.
Italians succeed in Carinthia and the Caiso.

1916
French smash line at Chaulnes; capture Allencourt and Pressoir; 659 prisoners.
Rumanian forces press on in offensive against Marshal von Mackensen in Dobrudja.

SEAGAR SUBSTITUTE.

New Commercial Product, Has High Food Value and Delicious Flavor.

By Telegraph to The Freeman.
Washington, D. C. Nov. 7.—Malt sugar syrup is a brand new sweet which has arrived on a commercial scale at the psychological moment to relieve the sugar shortage, say the specialists of the bureau of chemistry, United States department of agriculture, who have investigated various substitutes for sugar. In addition to being a sweet, malt sugar syrup has a delicious flavor somewhat resembling that of honey, which adds much to its palatability and value as a sugar substitute.

While malt sugar has long been known to chemists, its production on a commercial scale is only being

region.
Austro-Germans take 1,000 prisoners near Itothenthurm Pass on Transylvanian front; Russians press Teutons back near Tulghes.

1917
Austro-Germans in pursuit of Italians reach the Livenza river; Italians retiring to make a stand on the Piave; several thousand Italians taken prisoners.
Bolshevik revolution in Russia; Trotsky leads exiles to seize government; Kerensky and provisional government overthrown.
Second Liberty Loan nets \$4,617,532,300 to which 9,500,000 people subscribe.

1918
Americans occupy portion of Sedan on west bank of Meuse yesterday but part on east bank still in German hands.
American success in drive to bottle up German forces continues uninterrupted.
30,000 German deserters parade in Berlin; German navy mutinies.
French gain 10 miles between Oise and Aisne rivers; 100 more villages regained.
British advance taking Bani 8 miles west of Maubeuge.
German envoys on the way to meet Foch; German navy rebels, radical seizing control of the ships.
False peace report rouses all America; report of supposed armistice causes delirious joy; repudiated by Washington.

Two factors have stimulated its production recently. The shortage of sugar has developed a market for it, and the recent prohibition law has made available both the raw material and the machinery needed for its manufacture. Malt sugar syrup is made from the same grains as beer and may be made from corn or potatoes or any plant containing starch. Barley, which was used until recently in the manufacture of beer, can be used now to produce malt sugar syrup.

The Irish Republic.

Interesting and instructive map of Ireland showing at a glance the present status of the Nation's struggle for freedom. Something every friend of Irish freedom will want to save. With the New York American next Sunday, November 9. Or known to chemists, its production in advance from your newsdealer. Advertisement.

Dependable Footwear, Fashionably Made Properly Fitted, Modestly Priced

For thirty-one years we have conducted our shoe business on the four principles given above. Each line of shoes we buy must first contain the highest standard of quality at the price possible to get before it enters our stock. Next we make a careful study of the latest and most popular styles in demand in the largest cities and insist upon our shoes being made over the same lasts and by the same patterns.

The careful attention we give the correct fitting of the feet of our customers gives them the utmost of service, appearance and comfort possible.

By early buying and by selling more pairs of shoes than in former years we are able to sell at lower prices than if we had waited till later to buy and by selling more pairs of shoes we do not have to make so great a profit per pair to make a living profit as if our sales were less.

All Ready for the Ball

See the beautiful Evening Slippers we are selling for the Charity Ball which takes place next Tuesday, Nov. 11th. Satin and patent leather pumps and ballet slippers beautifully designed.

A Multitude of Styles

Our showing of Ladies' Stylish Footwear was never as great as it is this season. You will find the kind best suited to your every need and desire in our present immense stock.

Just Bring the Children

Our Children's Shoe business is increasing daily, due, we think, to the fact that our shoes give the young folks greater service for the money expended; have more snap and style, and are priced at a very small margin of profit.

WOOD LAUDS K. OF C.

Service of Real Assistance in Training Camps.

On the eve of their relinquishment under orders from the war department, of their arduous work in the domestic camps of the country, which will mean the eventual closing out of over 400 buildings, the Knights of Columbus Committee on War Activities has received the following letter from Major General Leonard Wood, commander of the Central Department.

"The work of the Knights of Columbus came under my observation for a period of nearly a year and a half at Camp Johnston, Kansas. I have also seen much of their work elsewhere. Their work has been excellent and characterized by a spirit of liberality and helpfulness. Indeed, the service rendered by the organization has been of real assistance in turning of our men in that it has added to their personal comfort and their contentment in camp. It has also added in the maintenance of high moral standards, by surrounding the men with the best of influences. You are to be congratulated on the results attained."

WEST SAUGERTIES.

West Saugerties, Nov. 6.—Mr. Butler and wife and Mr. Holtz and wife have rented Mr. Brown's large house for the winter. Mr. and Mrs. Kirk of Pine Grove have bought and are occupying the house formerly owned by Albert Durlie.

Mrs. Smith has returned after a two week's visit in New York. Mr. Martin and family have returned to their home in Tannersville.

Mrs. Clarence Snyder of Plate Clove spent a day last week with Mrs. D. W. Cole.

Albert Snyder and family of Blue Mountain were callers here on Sunday.

Peter Myer and David Cole are doing some work for H. W. Brown on his new property, the old Cole estate. Mr. Brown is very enterprising and has succeeded in giving West Saugerties quite a boom. By spring there will be quite a few changes in the place through his influence and as wish him success in his work.

Five children of east rural mail carrier are ill with scarlet fever.

Just What You Need Dr. Carter's K. & B. Tea

For a Few Cents You Can Save This Month, Building You Every Other Night for Two Weeks.

The safest way to free the bowels from poisonous accumulation, sleep up a good night, make the stomach digest properly and remove the poisons in the system, is to take Dr. Carter's K. & B. Tea every other night.

Take it till your bowels are in perfect condition, till your eyes sparkle with health and your skin grows clear and bright.

It's an old-fashioned vegetable compound that you know starts in your own home and while you're getting your head and bowels healthy, send for the tea that's making you and the people you love feel that will do it more good.

COAL RULES NOW IN FULL EFFECT

Those in Real Need of Coal Should Take It Up With Railroads Says Director General—Little Curtailment of Train Service Expected.

Director General of Railroads Walker D. Hines has issued the following statement relative to the coal situation:

"The machinery set up by the railroad administration to distribute the coal held in transit by the railroads in accordance with the directions of the fuel administrator is in full operation and as a result, wherever possible, coal is being distributed in accordance with the priority list as established by the fuel administrator where such coal is absolutely needed. Therefore where there is a real need for coal the problem should be taken up immediately with the railroad ordinarily supplying the coal and every effort will be made by such railroad to meet the demand. It is, of course, essential both because of the present bituminous coal strike and in order that the needs for the coming winter may be looked after that fuel be used as economically as possible. It should be remembered that the railroads did not interfere with the delivery of coal to designated consignees until the day before the present strike began. In order to conserve coal as much as possible regional directors of railroads have been given authority wherever it seems absolutely necessary to eliminate for the time being, train service, but in order to provide for the essential business needs of the country no general curtailment of train service is contemplated. The maintenance of the public transportation service is of paramount importance in order to save the countless needs of general public and the interruption of that service should be minimized as far as possible."

(Signed) "WALKER D. HINES, Director General of Railroads."

Poulet at Bagdad. By Telegram to The Freeman. Paris, Nov. 7.—Aviator, Poulet, who started to fly from France to Australia, has arrived at Bagdad, Turkey, said a dispatch from that city today.

SOCIETY NOTES.

Mr. and Mrs. John Polten of Lake Katrine wish to announce the engagement of their daughter, Elsie, to Horton Pearson of Flatbush. The wedding will take place in the near future.

A happy group of friends gathered at the home of Miss Reeta Peet on Hurley avenue, last Friday evening to enjoy a real Halloween feast. Everything was in keeping with the good old Halloween spirit and the evening will surely be remembered by all present.

A birthday surprise party was given Tuesday evening, November 4, at the home of Mr. and Mrs. Milton Nichols, 81 North Front street, in honor of Mr. Nichols. A large number of friends were present. The evening was spent with music and at a late hour refreshments were served and the guests departed wishing Mr. Nichols many more happy birthdays.

This year's Assembly Dances will begin with one on the evening of Wednesday, November 26th. Invitations for this greatly anticipated social event have been issued, for the dance which will take place at St. Mary's Hall. The committee having the dance in charge is composed of Mrs. C. Gordon Reed, Mrs. Harold King, Mrs. William Warren, Miss Sarah Horton, with C. Rodman Stull, treasurer.

On Sunday evening, November 2, Miss Grace Lonsberry Rosekrans, formerly of Gardiner, was united in marriage in New York city to John Joseph Curry of Cork, Ireland. After the marriage ceremony a wedding supper was served at the Hotel Dresden to a small circle of friends. The high esteem in which both Mr. and Mrs. Curry was held by their

many friends was evidenced by their beautiful gifts.

D. A. H. Meeting.

Wiltwyck Chapter, D. A. H., held a very interesting and enjoyable meeting at the Chapter House on Thursday afternoon. In the absence of the regent, Mrs. W. M. Davis, who is attending the state convention at Albany, Mrs. Kenyon, vice regent, presided. All members present were reminded that the annual election of officers would take place at the Chapter House on the afternoon of Thursday, November 20, at 2:30 o'clock. The Chapter was made the appreciative recipient of a number of paintings by the late Mrs. Julia Dillon, thus forming the nucleus for a fine art collection. Some beautiful old china as well as a handsome and valuable Chinese vase, belonging to Mrs. Dillon, were among the gifts and the gratitude and sincere appreciation of the Chapter was expressed. The program for the afternoon was in charge of Mrs. Ralph Clearwater and Mrs. Irving Hornbeck, and consisted of an instrumental number, "Royal Vagabonds," played by Messrs. Shurter and Malsenholder, in a manner which delighted all present. This number was followed by a vocal solo, "The Bird and the Rose," charmingly sung by Mrs. Ralph Glendenning, accompanied by Mrs. Putnam Cady. In response to the continued applause, Mrs. Glendenning then sang very sweetly, "Bye, Baby, Bye." The final number, played by Messrs. Shurter and Malsenholder, was a group of selections from "The Velvet Lady," Herbert's new opera. As an encore they played "The End of a Perfect Day." The social hour which followed, together with the serving of refreshments, was presided over by Mrs. Lawrence and Miss Husted, as hostesses.

First M. E. Church. Baltimore has the distinction of being the home of the first American Methodist church.

DANCING SATURDAY NIGHT. PYTHIAN HALL.—Advertisement.

If the citizens of Kingston were asked to vote on: In which store the dollar has the greatest purchasing power, nine-tenths of the population would vote for the Clothing and Haberdashery Establishment of H. G. Rafalowsky, 522 Broadway. The other tenth have never had the opportunity to be convinced. If you belong to this latter class, come in now and be convinced.

Every man, woman or child who buys at this market finds that we always endeavor to inspire confidence and insure satisfaction. We realize that confidence is the foundation of successful business, and make sure that each customer who trades here finds courtesy and proper service.
We could not inspire confidence with tough, "cheap" meats, but some butchers seem to be able to do so for a time. Three hundred and sixty-five days in the year our main thought is high meat quality and lowest consistent prices, and it is this very principle which has built up and enabled us to continue our business for a long term of years. We have built upon the solid foundation of satisfaction to patrons at any price, and our standing in the community as dependable butchers is the result of carrying out these principles.

The "Autometric" Carburetor
YALE
Made by The Yale & Towne Mfg. Co. STAMFORD CONNECTICUT
Why it's a member of the YALE family
BECAUSE it automatically feeds the correct mixture of gas and air for all speeds for any car.
Because it gives you more power and greater flexibility of control.
Because it gives you up to 30% more mileage from your gasoline.
Because it will reduce your gear shifting at least 20%.
Because it reduces engine vibration to a minimum.
Because it is a product resulting from years of successful experiment by carburetion experts.
Because it has met successfully every one of the long list of gruelling service tests to which it has been subjected.
Because it meets fully the Yale standards of perfection in workmanship and service, and is unquestionably the best carburetor on the market, regardless of the car on which it is placed.
That's why it is a product of the proper calibre to bear the trade-mark "Yale."

K. H. S. TO PLAY ALBANY SATURDAY

The Kingston High School football team will play its second home game of the season on Saturday afternoon, when they line up on the Athletic Field against the Albany High School crew. Kingston High is out to win Saturday as they must uphold the reputation of the former eleven.

A large crowd is looked for as the game will be as good as the one put up the day Poughkeepsie played here.

TRIANGLE FIVE TRIM SOLDIERS

Local Basketball Team Wins From Newburgh Machine Gunners by Score of 30 to 24.

The Triangle basketball five officially opened their season on Wednesday evening when they went to Newburgh and walloped Co. E. Machine Gunners, of that city, at the state armory by the score of 30-24. The locals played an exceptionally good game, considering that they had not had any previous practice this season. The Kingstonians started right out at the first sound of the whistle and kept the "Gunners" on the jump until the finish.

Jack Spalt played with the Triangles as a guard. He had been signed up by the Guard officials and played in the game against the Artillery last week. However, owing to the fact that Spalt resides in an other district, he found it impossible to become a member of the company.

Robins played a strong, defensive game and loomed up as a stone wall against the fleet-footed Peattie. The latter succeeded in scoring twice in the last part of the game. Harry Rhodes, a former member of the Beacon Trinity Five, played his first game with the soldiers and contributed 18 of Co. E's 24 points. Spalt was unable to hold Rhodes down and he walked off with Spalt in grand style.

From the time that Kiernan started scoring for the Triangles, after the first two minutes of play, the soldiers were carried off their feet and never headed off the locals.

In the first half the Colonial City boys baffled Co. E by their snappy pass work. Shortly after the opening whistle, Rhodes gave the Newburghers their lone lead of the game by scoring on a pass from Baker. Robins scored on a foul and Kiernan netted a field goal from the scrimmage. Robins scored again on a free toss. Johnson followed with the first of his many spectacular tosses and Dolson scored two more points on a pass from Spalt. Dolson scored again, and Rhodes duplicated his act. Dolson coked the pill on a long shot, followed by Kiernan, and Rhodes, who dropped in his third one. Clever shots by Johnson and Robins brought the half to a close with Kingston holding an 18-6 lead.

Second Half.

Co. E braced up a bit in the second half, but were unable to overcome the large lead of the "Triangular" boys. Johnson opened the half by a long one hand throw, followed closely by Rhodes, who coked the pill twice in succession. Spalt netted a neat one from under the netting and Johnson dropped in another one of his famous one-handed shots. Rhodes and Dolson each scored a pair of twines and soon after Newburgh scored three more fields. Peattie got his first one, while Rhodes

scored the other two through passes from Peattie.

With five minutes yet to play, the crowd cheered wildly for an equalized score. Newburgh fought gamely and the soldiers put new belts on their machine guns, but their fire lessened and hopes dropped when Rhodes scored a neat field. Peattie registered from the field and E. McGowan ousted from the scrimmage, bringing the game to a final.

Summary:

Triangles.	F.R.	F.P.	T.P.
Kiernan, J.	2	0	6
Dolson, H.	4	0	3
Johnson, C.	4	0	3
Robins, J.	2	4	2
Spalt, J.	2	0	2
Wilcox, C.	0	0	0
Total	14	2	20

Co. E.	F.R.	F.P.	T.P.
Peattie, H.	0	0	1
Rhodes, J.	0	0	18

THE DOWNTOWN DRY GOODS STORE

26 BROADWAY, COR. MILL ST.

"Not on the Main Street—
but the Main Store"

To find gold you have to dig for it.

To find our store you have to walk a few steps off the main street.

But every step is worth dollars in pleasure and satisfaction, and when you get here you'll find a gold mine of expert attention and personal service. We sell the famous Victor Records and

VICTROLAS

When you hear Henry Burr sing "Weeping Willow Lane" or John McCormack sing "Roses of Picardy" or Heitzel or Smith's Orchestra you'll say every one is a 24-carat nugget of joy!

And the superb tone of the Victrola makes every record sound better, bringing out every delicate shading of the harmony. Just hear the Victrola tone once, and you'll decide it's the instrument you want always.

It's Worth Walking a Few Steps to
